

HIGH TORQUE TIMING PULLEYS -1.5GT 2GT-

ハイトルクタイミングプーリ1.5GT・2GTタイプ

ドイツ・ユニッタ・アジア(株)の1.5GT・2GTタイプに適合します。

カタログ規格外品はこちら P.137

CADデータフォルダ名: 19_Timing_Pulleys

2GTハイトルクタイミングプーリはP.1545、2GT歯付アイドラーはP.1539 1.5GTハイトルクタイミングプーリはVONAをご参照ください。

Technical specifications for 1.5GT and 2GT pulleys. Includes tables for belt widths (4mm, 6mm, 9mm), pulley types (GPA), and dimensions. Features diagrams for pulley shapes (A and B) and tapping hole patterns (P, N, V, F, Y).

Tables for 1.5GT and 2GT pulley dimensions and tapping hole specifications. Includes columns for diameter, width, and hole type.

Section for hole specifications (軸穴仕様). Details hole types H (through hole), P (through hole with tap), N (new JIS keyway), V (segmented hole), F (segmented hole), and Y (double segmented hole). Includes diagrams and notes on surface treatment and tapping.

Table for 1.5GT pulley specifications, showing pulley type, tooth count, and pulley shape options (A and B).

Table for 2GT pulley specifications, showing pulley type, tooth count, and pulley shape options (A and B) with detailed dimensions.

Order and delivery information for 1.5GT and 2GT pulleys, including part numbers and lead times.

Price and quantity information for 1.5GT and 2GT pulleys. Includes unit prices and quantity discounts.

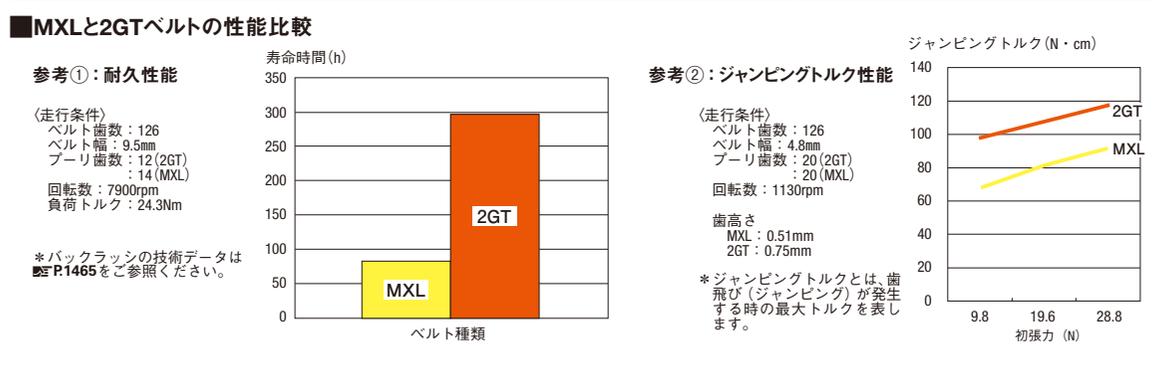

Price calculation examples for 1.5GT and 2GT pulleys, showing base prices and additional costs for tapping holes.

Main price table for 2000 series aluminum pulleys (白アルマイト). Lists prices for various pulley types (A, B) and hole types (P, N, V, F, Y).

Alteration and processing options for pulleys, including hole types and surface treatments.

Table for alteration specifications, detailing hole types (BC90, NFC, RFC, LFC, FC, BC) and their respective specifications and costs.

Table for side hole specifications (側面穴追加), detailing hole types (QTC, QFC, QSC, KTC, KFC, KSC, ZTC, ZFC, ZSC) and their specifications.
